ASX ANNOUNCEMENT (ASX: BRU) 7 February 2013

Weekly Drilling Report - Yulleroo 4 Appraisal Well

Buru Energy Limited (“**Buru**” or “**Company**”) provides the following weekly update on drilling operations at the Yulleroo 4 well as at 06:00hrs, 7 February 2013 (AWST).

Yulleroo 4 is the first well in the Buru – Mitsubishi Corporation (“**MC**”) 2013 drilling program and is located in exploration permit EP 436. Buru and MC each have a 50% interest in this well and in EP 436. The well is located some 80 kilometres to the east of Broome and is some eight kilometres from the Great Northern Highway along the all weather Yulleroo access road.

The well has a programmed total depth of 3,800 metres and is expected to take some 52 days to drill and suspend.

Since the last progress report, the well has been drilled ahead in 12¼” hole to a measured depth at 06:00 hours today of 2,078m. The well will continue to be drilled ahead to the intermediate casing point expected to be at a measured depth of 2,630 metres.

In accordance with its policy of releasing weekly drilling progress reports, the Company expects to issue a further drilling progress report on 14 February 2013, subject to any material events occurring in the meantime.

Further information on the Company is available at: www.buruenergy.com
